

More than 80 students from area middle schools competed in the Northwest Indiana Chapter Mathcounts competition held at VU on February 11.

Co-sponsored by the Department and the NWI chapter of the Society of Professional Engineers, this event has been held on campus for 12 years.

This year it was held in the ballroom of the new Harre Union. More than 30 undergraduate students and faculty volunteered to make the event a success by performing a wide range of tasks. The participating schools were Krueger MS, Elston MS, Barker MS, Boston MS, Edison Jr. HS, Kahler MS, Wilbur Wright MS, Willow Creek MS, New Prairie Jr. HS, and Kesling.
