

## **CLASH W/ATHLETIC SCHEDULES AND FINAL EXAMS:**

Council of Deans  
Minutes of the Meeting of April 24, 1996

2. The Council discussed the issue of the clash between athletic and academic schedules, most specifically in relationship with the track team's participation in a conference which coincides with final exams. The members of the track team will be away from Friday to Wednesday during the exam period. The Council reached the following conclusions:
  - A. Our current catalog does not allow for any exceptions from taking final exams in the final exam period for athletic reasons. Language allowing this should be included in the catalog so that students are not penalized.
  - B. The catalog should also make clear that the instructors authorize arrangements for make-ups.
  - C. Also, a process to manage these conflicts in terms of due notification, etc. should be put in place. Assistant Provost Renu Juneja will write an appropriate memo to the Intercollegiate Athletics Committee regarding implementing such a process. The Director of Athletics should be copied on this memo.
