Total net worth of Businesses and investment farms Do not include the value of your home if primary residence is on farm.	\$ _____	\$ _____

I certify all the information reported is complete and correct. The student must sign and at least one parent must also sign if parent information was required on the FAFSA. A handwritten signature, not typed, is required:

Student Signature: _____

Date: _____

Parent Signature: _____

Date: _____

2024-2025 Asset/ Additional Financial Information Worksheet Instructions

Taxable scholarships, grants, or AmeriCorps benefits: You must include in gross income:

- Amounts used for incidental expenses, such as room and board, travel, and optional equipment.
- Amounts received as payments for teaching, research, or other services required as a condition for receiving the scholarship or fellowship grant. However, you don't need to include in gross income any amounts you receive for services that are required by the National Health Service Corps Scholarship Program, the Armed Forces Health Professions Scholarship and Financial Assistance Program, or a comprehensive student work-learning-service program (as defined in section 448(e) of the Higher Education Act of 1965) operated by a work college.

Cash, Savings and Checking:

Include the current balance of checking and savings accounts and total amount of cash you currently have.

Net worth means value minus the debt.

The current value, as of the date you filed the FAFSA, of investments, businesses, and/or investment farms, minus debts related to those same investments, businesses, and/or investment farms. When calculating net worth, use zero (0) for investments or properties with a negative value.

Investment value means the current balance or market value of these investments as of today.

Investment debt means only those debts that are related to the investments.

Investments include: real estate (do not include the home in which you live), rental property (includes a unit within a family home that has its own entrance, kitchen, and bath rented to someone other than a family member), trust funds, UGMA and UTMA accounts, money market funds, mutual funds, certificates of deposit, stocks, stock options, bonds, other securities, installment and land sale contracts (including mortgages held), commodities, etc.

Investments also include: qualified educational benefits or education savings accounts (e.g., Coverdell savings accounts, 529 college savings plans, and the refund value of 529 prepaid tuition plans). Parents of dependent students should only report the value of college savings plans designated for the dependent student. For a student who does not report parental information, the accounts owned by the student (and/or the student's spouse) are reported as student investments in question 22.

Investments do not include: the home you live in, the value of life insurance, ABLE accounts, retirement plans (401[k] plans, pension funds, annuities, non-education IRAs, Keogh plans, etc.), or cash, savings, and checking accounts reported in the previous question.

Investments also do not include: UGMA and UTMA accounts for which the student is the custodian, but not the owner.

Business and/or investment farm includes businesses that you own (including a small or family-run business) or income-producing farms that you own (including the fair market value of land, buildings, livestock, unharvested crops, and machinery actively used in investment farms, agricultural, or commercial activities).

Businesses and investment farms do not include the value of crops that are grown solely for consumption by the student and their family or the home in which you live. If the home in which you live is also located on a farm that you own, do not include the net value of that principal residence in the net value of all farm assets. The principal residence may include the home, structures, and land that are adjacent to the home that are not being used, stored, or sold for farming or other commercial activities.
